

TCS 2025–2026 Placement Prep Guide

Your complete roadmap for B.Tech students — covering hiring process, technical expectations, eligibility, and a 6-month preparation strategy to crack TCS placements.

FOR B.TECH STUDENTS

2025–2026 CYCLE

Why Target TCS?

Ninja

₹3.3–4.5 LPA — Entry-level role for core engineering graduates

Digital

₹7–7.5 LPA — Tech-focused roles, 7.5+ CGPA preferred

Prime

₹9–11+ LPA — Premium roles, 8.0+ CGPA expected

India's largest IT company with structured growth paths, global exposure, and increasing focus on AI, cloud, and digital roles.

TCS Hiring Process

All four rounds must be cleared sequentially. NQT covers Numerical, Verbal, Reasoning, and Coding. Final HR includes document verification and joining discussion.

Technical Stack TCS Prefers

Languages

Java, Python, C/C++, JavaScript, C#/.NET

Frameworks

Spring Boot, React, Node.js, Django/Flask

Databases

MySQL, Oracle, PostgreSQL, MongoDB

Cloud & DevOps

AWS, Azure, Docker, Kubernetes, Git, Jenkins

AI & Analytics

Python AI/ML, Pandas, NumPy, Power BI, APIs

Eligibility Criteria

Academic Criteria

60% or 6.0 CGPA throughout. Digital/Prime roles expect 7.5–8.0+ CGPA.

Eligible Branches

CSE, IT, ECE, AI/ML, Electrical & most engineering branches.

Backlog Policy

0–1 active backlog allowed during interview. None at joining.

Package Range

Ninja: ₹3.3–4.5 LPA | Digital: ₹7–7.5 LPA |
Prime: ₹9–11+ LPA

2025–2026 Hiring Trends

Skill-Based Hiring

TCS is reducing mass fresher hiring — skills and projects now outweigh certificates.

AI & Automation Focus

Strong emphasis on AI-assisted development. Cloud and automation awareness is a key differentiator.

Digital & Prime in Demand

Higher-value roles getting more attention. Coding ability and communication matter most.

5 Preparation Tips for 3rd-Year Students

01

Master One Language

Choose Java or Python and practice coding daily.

02

Practice Aptitude

Focus on quant, reasoning, and verbal for NQT.

03

Build One Strong Project

Understand it deeply – explain it confidently.

04

Learn CS Fundamentals

Prepare DSA, DBMS, OOP, OS, and SQL basics.

05

Improve Communication

Practice HR questions and mock interviews regularly.

Start Preparing This Week

1

Months 1–2

Aptitude + Programming Basics

2

Months 3–4

DSA + Build a Project

3

Month 5

Technical Interview Prep

4

Month 6

HR Practice + Full Mock Tests

✅ **Final Advice:** TCS values adaptable engineers who combine coding, communication, and AI awareness. Consistency and practical learning beat memorisation every time. **Start today.**
