

Placement Cell AI Use Policy (2025–2026)

This policy defines acceptable and prohibited use of AI tools by students during placement preparation and recruitment activities.

#	Scenario	Tier	Reasoning
1	AI résumé editing	Limited	Allowed with disclosure.
2	AI mock interviews	Minimal	Safe practice tool.
3	AI-written placement essays	High-risk	Needs mentor review.
4	AI-coded GitHub projects	High-risk	Requires oral defence.
5	AI in graded assignments	Limited	Allowed with declaration.
6	AI-generated CGPA	Unacceptable	Academic falsification.
7	AI-cloned voice	Unacceptable	Identity fabrication.
8	AI skills self-assessment	Minimal	Useful for reflection.

Permitted Uses

1. AI may be used to improve résumé grammar and formatting.
2. AI may be used for mock interview practice.
3. AI may be used to explain technical concepts.
4. AI may be used to generate study schedules.
5. AI may be used to review student-written code.

Prohibited Uses

1. AI may NOT fabricate projects or internships. Detection: oral defence.
2. AI may NOT alter CGPA or marks. Detection: portal verification.
3. AI may NOT clone voices for interviews. Detection: recruiter verification.
4. AI may NOT fully generate essays where personal writing is assessed.

Enforcement

The placement cell may conduct random oral reviews for projects and résumé claims. Violations may result in warning or temporary withdrawal of placement support. Not all AI misuse is fully detectable, so the policy also relies on student integrity.
